Portfolio: <https://fidatosartportfolio.nxtdev.xyz>

PROFESSIONAL SUMMARY

Accomplished IT Leader and Systems Specialist with 19 years of hands-on corporate IT industry experience (2006–2025) driving technical operations, software deliverables, hardware/networking infrastructure, and cross-functional team leadership. Backed by a strong foundational period of technical upskilling in hardware, networking, and software systems (2004–2006). Proven track record in orchestrating end-to-end technical projects, streamlining operational workflows, and writing technical thought leadership on AI and emerging systems. Currently on a career break for health reasons, actively leveraging modern AI frameworks as technical execution tools for automation and layout optimization.

CORE COMPETENCIES & TECHNICAL SKILLS

- **IT Operations & Systems Architecture:** IT Technical Operations, Software Delivery Management, Infrastructure & Network Administration
- **Leadership & Governance:** Systems Leadership, Cross-Functional Team Management, Agile & Service Operations, Workplace Culture
- **AI & Emerging Tech Strategy:** Generative AI Workflows, Automation Tools, Prompt Engineering, Systems Integration
- **Technical Communication:** Technical Documentation, System Requirements, Architecture Blogging, Strategic Advocacy

PROFESSIONAL IT EXPERIENCE

Senior IT Systems & Operations Lead | *Corporate IT Industry*

2006 – 2025

- Delivered 19 consecutive years of leadership across corporate IT systems, managing end-to-end software delivery, network stability, and cross-functional operations.
- Directed complex technical projects, aligning engineering output with strategic organizational goals, compliance standards, and SLA requirements.
- Championed systems ethics, operational governance, and workplace culture improvements across multi-tier engineering teams.
- Transitioned to a planned career break for health management while continuing independent technical R&D; and AI system experimentation.

Hardware, Networking & Software Engineer Trainee | *Technical Upskilling*

2004 – 2006

- Executed intensive hands-on technical upskilling and on-job training in computer hardware assembly, network routing/switching, and core IT software methodologies.
- Established foundational troubleshooting expertise in operating systems, network infrastructure, and enterprise software execution.

TECHNICAL THOUGHT LEADERSHIP & PROJECTS

Technology & AI Learnings Editor | *Medium Technical Publication*

2020 – Present

- Publish technical analysis, AI integration strategies, and emerging technology learnings at https://medium.com/@tatankavenkat_19803.
- Author deep-dives on systems leadership and tech culture at <https://medium.com/@immortalassuran>.

Technical Advocacy & Urban Systems Design | *MIT Climate CoLab & Digital Advocacy*

2012 – 2026

- **MIT Climate CoLab:** Engineered technical proposals for urban infrastructure, sustainable city designing, and microclimate control systems.

- **Advocacy via Content Creation:** Led content initiatives across digital channels promoting mental health awareness, digital ethics, and technical education access.

EDUCATION & ACADEMIC CREDENTIALS

- **Bachelor of Engineering (B.E.) in Electrical and Electronics Engineering (EEE)** — Sri Venkateswara College of Engineering (SVCE), Madras University (2004)
